Thanks Darcy. That looks great.

As for NRC's review, keep me posted.

Subject: Planned itinerary for SD trip

Since I was less than clear today on the proposed itinerary for the SD trip – here is what Betsy and I put together:

6/10

- Fly to Pierre, arrive around 12:00
- Midyear with Pirner and staff from 2-4
- Overnight in Pierre

6/11

- Drive to Edgemont (~ 4 hours from Pierre)
- Tour the Dewey Burdock site – 2- 4 pm – we may need to make adjustments now to include a meeting with President Steele – I'll work with Alfreda to see when/if we can get some time with him as well. The company is confirmed for this date, and if we need to move the time a bit that shouldn't be a problem.
- Drive to Rapid City (~1.5 hours from Edgemont)
- Overnight in Rapid City

6/12

- Fly to Denver – flight is at 7:30 am

As I mentioned, we thought it might be good to have Valois Shea join you and Deb for the site visit. If you have any questions or concerns with the plan, please let me know.

We'll be getting on your schedule in the next couple of weeks for a briefing on where we are in the permitting process. We thought we would have information to share with you on the decision from the NRC Atomic Safety and Licensing Board on the adequacy of the NRC's NHPA review, which was supposed to be issued today. That decision has now been delayed until the end of April.
